

Call for Papers: Autism Convention:

Beginning annually in 2015, a special section of *Behavior Analysis in Practice* will be dedicated to research and practice that was presented at the annual ABAI Autism Convention. If you are not familiar with *Behavior Analysis in Practice*, the journal is a premier outlet for applied behavior analytic research and practice demonstrations. There are a variety of submission categories to choose from, ranging from Original Empirical Reports to very short Brief Practices. The latter is perfect for research that may have been showcased in poster presentations, as they often deal with preliminary data or clinical demonstrations.

The deadline for this special section is **May 1st 2015**, after which submissions will be treated as regular manuscripts for future issues. I encourage you to take advantage of this exciting opportunity to move your presentation to possible publication in one of our field's leading behavior analytic journals.

Please visit [www.springer.com/40617](http://www.springer.com/40617) for more information on submitting your manuscript.

*\*Make sure to include a cover letter which notes possible inclusion in this special section along with your original presentation/poster number and title from the convention.*
