Prerequisites for Publication

Authorship: The Editors of Diabetology International adhere to recommendations of the International Committee of Medical Journal Editors [http://www.icmje.org] regarding criteria for authorship. Accordingly, each person listed as an author or coauthor for a submitted report must meet all three criteria. An author or coauthor shall have:

1. Conceived, planned, and performed the work leading to the report, or interpreted the evidence presented, or both;
2. Written the report or reviewed successive versions and participated in their revision;
3. Approved the final version.

Meeting these criteria should provide each author with sufficient knowledge of and participation in the work to allow him or her to accept public responsibility for the report.

Certification: This Certification Form should be signed and submitted with the manuscript. The senior or corresponding author is requested to certify that all listed individuals qualify for authorship according to the above three criteria. The author(s) should also certify that: no part of the work described has been published before; that the work is not under consideration for publication elsewhere; that if and when the manuscript is accepted for publication, the author(s) agree to automatic transfer of the copyright to the society and that the manuscript, or its parts, will not be published elsewhere subsequently in any language without the consent of the copyright holders.

Please upload the PDF of the Certification Form at the time of the initial submission of the manuscript.

Animal and human research: For studies with human subjects, include the statement “All procedures followed were in accordance with the ethical standards of the responsible committee on human experimentation (institutional and national) and/or with the Helsinki Declaration of 1964 and later versions” before the References section. For studies with animals, include the statement “All institutional and national guidelines for the care and use of laboratory animals were followed” before the References section.

Certification Form – To be submitted with manuscript to Diabetology International

Manuscript title:

I/We hereby certify that the work submitted is in full accordance with the statement of “Prerequisites for Publication” for Diabetology International.

Author’s name (please print)       Author’s signature       Date
