The best place to be for researchers and engineers from the chemiluminescence, bioluminescence and biosensor communities.

A four-days program consist of daily invited lectures, keynotes, oral presentations, poster spotlight and posters. All is organized in order you will find your place.

Abstracts are invited from **July 2017** on the following topics:

**Bioluminescence**
- Theoretical aspect
- Luciferases
- Biochemistry
- Biodiversity
- Reporter gene technology, Others....

**Chemiluminescence**
- Theoretical chemistry
- Photoproteins
- Photo/thermo/electrochemiluminescence
- Nanoparticles and probes
- Educational tools
- Others....

**Bioassays/Biosensors**
- Enzyme/affinity/cell biosensors
- Material science
- Transducers
- Microsystems
- In vivo imaging
- Others.....

**International Scientific Committee**

**Europe**
- Aldo Roda (Italy)
- Alexei V. Trofimov (Russia)
- Arne Lundin (Sweden)
- Elisa Micheli (Italy)
- Eugene Vysotski (Russia)
