The best place to be for researchers and engineers from the chemiluminescence, bioluminescence and biosensor communities.

A four-days program consists of daily invited lectures, keynotes, oral presentations, poster spotlight and posters. All is organized in order you will find your place.

Abstracts are invited from July 2017 on the following topics:

**Chemiluminescence**
- Theoretical chemistry
- Luciferases
- Biochemistry
- Biodiversity
- Reporter gene technology, Others...

**Bioluminescence**
- Theoretical aspect
- Luciferases
- Biochemistry
- Biodiversity
- Reporter gene technology, Others...

**Bioassays/Biosensors**
- Enzyme/affinity/cell biosensors
- Material science
- Transducers
- Microsystems
- In vivo imaging
- Others.....

**International Scientific Committee**

**Europe**
- Aldo Roda (Italy)
- Alexei V. Trofimov (Russia)
- Arne Lundin (Sweden)
- Elisa Micheli (Italy)
- Eugene Vysotski (Russia)
- Francesco Baldini (Italy)
