Igniting the Power of Community: The Role of CBOs and NGOs in Global Public Health

Igniting the Power of Community: The Role of CBOs and NGOs in Global Public Health introduces readers to the pursuit and potential of community-based organizations and nongovernmental organizations to transform global public health. At a time of unprecedented challenge - economic crises, social inequalities, environmental stressors, emerging health threats - these organizations are driving change, often being the first to call attention to the issues and increasingly forging significant and sustainable solutions. Igniting the Power of Community demonstrates why understanding the roles of the diverse organizations of this sector is vital to anyone concerned with improving health and public health today. This forward-thinking book explains how citizen sector organizations work, their immediate and long term impact on public health, and the key players and business dynamics involved.

A sampling of the coverage:
► The new era of social entrepreneurship and philanthropy
► Sustainability in international public health NGOs
► Front-line perspectives from both well-established and grassroots CBOs
► Faith-based organizations and public health
► NGOs and the military: evolving relationships in conflict and disaster zones
► Understanding the environmental health movement and its impact

Whether you are involved in clinical care, health research, public health programs, or policy development and implementation, this book will serve as an invaluable resource in working most effectively with and within these dynamic organizations.

From the Table of Contents
► Section 1: Preparing for Action. 1: A Brief History of CBOs/NGOs in Health and Public Health. 2: From an Idea to a Sustainable Organization: Getting a Grassroots CBO Off the Ground. 3: The Importance of Sustainability in International Public Health NGOs. 4: Donor Organizations: What You Need to Know.

Section 4: Call to Action. 21: Players and Pawns: The Current Controversy with and Clampdown on NGOs in Russia. 22: Community-Based Organizations in the Millennium: Opportunities for Growth, Challenges to Survival.
