

Instructions for Authors

Journal of Engineering Physics and Thermophysics

Manuscript Submission

Contributions should be sent to the editorial board of the Russian language journal (not to Springer) at the following address:

Editorial Board of Journal of Engineering Physics and Thermophysics

P. Brovka Street 15

220072 Minsk

Belarus

Phone: + 375 172 842131 / + 375 172 842331

E-mail: jepter@itmo.by.

Manuscript preparation

1. Papers may be submitted to the journal in English or Russian.
2. All papers are subjected to scientific peer review.
3. All papers must be submitted in electronic form.
4. The material should be presented in the following order:
 - a) The UDC number (universal decimal classification – see: www.udcc.org);
 - b) Authors' initials and names;
 - c) Title of the paper;
 - d) An abstract (not exceeding 10 lines) which should be most informative, giving clear indications of the nature and range of the results contained in the paper, and should not duplicate the conclusions;
 - e) Body of the text;
 - f) Complete list of symbols (in an alphabetical order) with dimensions and sub- and superscripts with explanation of their origin;
 - g) References;
 - h) Tables;
 - i) Captions to figures with all dimensions indicated;
 - j) Figures.
5. All figures and photographs should be presented in an electronic form as individual files in suitable graphic formats.
6. Tables, each bearing a title should be self-explanatory and numbered consecutively. The same information should not be reproduced in both tables and figures.
7. An exponential function should be given as $\exp z$ rather than e^z .
8. All structural formulas are to be numbered in one consecutive series of Arabic numerals and so cited in the text. Please avoid inclusion of intermediate steps unless absolutely necessary.

9. References to cited literature should be grouped in numerical order of appearance and the following formats applied:

For articles:

A. J. Reynolds, The prediction of turbulent Prandtl and Schmidt numbers, *Int. J. Heat Mass Transfer*, 18, No. 6, 1055-1069 (1975).

For books:

G. K. Batchelor, *An Introduction to Fluid Dynamics*, Cambridge Univ. Press, Cambridge (1967).

References to unpublished works are not allowed.

10. Authors are requested to give the following contact information: First name, Last name, affiliation, exact mailing address, telephone number and email address.

11. Authors will be informed of registration, acceptance or rejection of the paper by email. From the date of registration until final publication, the author must be ready to promptly answer all questions which may arise during editing by email. Before publication, the proofs of the paper are sent to the author by email. The author must promptly inform the Editorial office on principal changes indicating the page and place of corrections to be incorporated. It is worthy to send a revised, verified or corrected copy of the paper together with the explanatory letter.

12. The date of the paper receipt is that at which an original paper is received. The date of the receipt of revision is also indicated on the front page.

13. The request of the Editorial office to revise the paper does not mean that the paper is accepted for publication since it will again be subjected to reviewing and considered by the Editorial Board. If the paper is not accepted for publication, the Editorial office informs the author of the rejected paper on the referees' comments and the official decision of the Editorial Board. The author of the rejected paper has the right to ask the Editorial Board to reconsider the possibility of publication of the paper.

14. The author transfers to the Editorial office of the Journal the exclusive right to reproduce and distribute the paper as periodicals and online and to subsequently publish it in the Journal of Engineering Physics and Thermophysics.

15. The information about the authors whose papers were published in the journal can be included in the database of an electronic (online) version of the journal.

Copyright Information

Submission of a manuscript implies that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere, that its publication has been approved by all co-authors, if any, as well as (tacitly or explicitly) by the responsible authorities at the institution where the work is carried out.
