Editor-in-Chief: Madhavi Latha G.

**Special issue title**

**Developments in Transportation Geotechnics**

Indian Geotechnical Journal is published by the Indian Geotechnical Society in association with Springer (India).

**Special issue Editors:** J. T. Shahu, Altaf Usmani, G. L. Sivakumar Babu

Topics to be included in Special issue but not limited to -

- Challenges in design and construction of Pavements and Embankments.
- Design and construction of high speed Railway and Metro track sub-structures.
- Slope stability, Landslides, Debris flows and Avalanches on hilly roads and remedial measures.
- Sub-surface sensing, Investigations and Monitoring in transportation Geotechnics.
- Use of Geosynthetics and Non traditional materials in transportation geotechnics.
- Ground Improvement techniques for transportation Geoetchnics.
- Transport geotechnics in complex Underground Construction.
- Emerging trends in Transportation Geotechnics, Unsaturated Soil Mechanics, Macro and Nano Technology, Climate Change and Sustainability

Paper Submission deadline: July 31, 2019

**Peer Review Information:** This journal follows a single blind peer review process.
