

Instructions for Authors

Manuscript submission:

The volumes of the book series can be solicited by the series editors or proposed by prospective authors using the form available on the website of the series:

<https://www.springer.com/series/6512>.

Our peer review policy:

In order to maintain the high standard of the publications in our series, each submission is subjected to peer review to assess the quality and originality of the proposed material. This means that

- Unsolicited initial proposals may be assessed internally or sent to external reviewers for assessment. All final manuscripts are sent to at least two external reviewers who are experts in the relevant field(s).
- In case reviewers recommend publication after revisions, the revised manuscript will be sent out for another round of reviewing. In such cases authors should submit a list of responses to reviewers' comments and changes that were made to the text together with the revised manuscript.
- The final decision to accept or reject the manuscript is made by the series editors in conjunction with the publisher.

Note that the peer review process is single-blind.

Ethical requirements:

Authors need to disclose any conflict of interest they might have as well as sources of funding. In addition, if the volume presents empirical research that was done by the author(s) themselves and involved human or non-human animal subjects, the author(s) must confirm that this empirical research was conducted by respecting the corresponding ethical guidelines and that informed consent was obtained in case humans were involved. Authors should include these statements in a separate section entitled "Compliance with Ethical Standards" after the acknowledgments and before the references section as outlined in the **Book Ethics Policy** on this website of the series. Authors have to follow the **Book Ethics Policy**. Manuscripts are checked for plagiarism.

Manuscript preparation guidelines:

Please follow our standard **Manuscript guidelines for English books** and the **Key style points**. The documents can be downloaded at: [https://www.springer.com/us/authors-editors/book-authors-](https://www.springer.com/us/authors-editors/book-authors-editors/resources-guidelines/book-manuscript-guidelines)
