Categories of Manuscripts

- **Full Length (not exceeding 6000 words)**
The paper should describe new and confirmed findings. Experimental procedures should give sufficient details for others to verify the work. The paper should comprise: (a) an abstract, (b) key words, not more than 6,(c) important abbreviations, (d) introduction, precise to introduce the subject with citations of relevant literature, (e) materials and methods, (f) results and discussion, (g) acknowledgements, and (h) references. No heading for abstract and introduction to be given.

- **Short Communication (not exceeding 2000 words)**
A short communication should be a record of completed short investigation giving details of new methods or findings. It should not exceed 4 to 5 typed pages with an abstract followed by key words. Body of the text will not have any title, like abstract, material and methods, results, and discussion except the acknowledgements and references.

- **Review (not exceeding 8000 words, by invitation only)**
It should be comprehensive, up to date and critical on a recent topic of importance. It should cite latest references and identify the gaps for future research. It should also contain an abstract (without heading), key words, acknowledgements and references.

- **Commentary (less than 1000 words)**
These articles are expected to be short expository essays on issues related to science and scientific activity in present day context.

- **Book Reviews (not exceeding 1000 words)**
Book reviews are generally solicited / commissioned, unsolicited reviews will also be considered. Reviews must not merely ‘list’ brief descriptions of the contents of the book. All manuscripts are subject to the review process, and the Chief Editor will make the final decision concerning acceptance or rejection, or Editor/Associate editor assigned by the Chief Editor; however, the following instructions must be observed to avoid delays.
Journal of Plant Biochemistry and Biotechnology
Chief Editor: Sharma, T.R.
