Jesse Bledsoe, PhD, Associate Editor for Pediatric Behavioral Neuroimaging, University of Washington School of Medicine, Seattle, WA
Grace A. Mucci, PhD, ABPdN, Associate Editor for Grand Rounds, Children’s Hospital of Orange County, Orange, CA

Editorial Assistant
Stephanie Emhoff, University at Albany-SUNY, Albany, NY

The Journal of Pediatric Neuropsychology is the official journal of the American Academy of Pediatric Neuropsychology. This peer-reviewed journal publishes original research focused on the needs of children and adolescents with neurodevelopmental or neurocognitive disorders. Manuscripts should have practical applications for a pediatric population in clinical, school, and/or forensic settings.

Pediatric Grand Rounds will feature case studies that include both common and unique or rare conditions to help elucidate the current clinical and empirical literature, and highlight the complexity often seen in pediatric neuropsychology practice. Accepted manuscripts should include the following:

1. Brief overview of the case, including course of illness, neuroimaging, and neurodiagnostics if relevant
2. Brief review of epidemiology and disease process
3. Review of relevant literature as it relates to neuropsychological processes
4. Review of neuropsychological assessment process and findings
5. Conceptualization, recommendations, and suggestions for future research
Manuscripts must conform to the Instructions for Authors available on the journal’s homepage (http://www.springer.com/psychology/neuropsychology/journal/40817).

Please contact Associate Editor for Grand Rounds, Grace Mucci, at gmucci@choc.org should you have any questions regarding suitability for submission.
