

To obtain permissions for material in either of the *Metallurgical and Materials Transactions* publications please follow the below instructions.

Springer has entered into a partnership with the Copyright Clearance Center to meet our customer's licensing and rights & permissions needs.

The Copyright Clearance Center's Rightslink® service makes it faster and easier to secure permission from Springer journal titles to be republished in a secure intranet site, restricted internet site, CD-ROM/DVD, journal (print/online), book (hardcopy or electronic), coursepack, e-reserve, doctoral thesis, research project, magazine, newsletter, directory, newspaper, brochure/pamphlet, presentation or photocopies/handouts.

From now on, you simply visit: <http://www.springerlink.com> and locate the desired content. Then you go to the article's abstract and click on "Request Permission" to open the following page:

1. Select the way you would like to reuse the content
2. Create an account if you haven't already
3. Accept the terms and conditions and you're done!

Important note: If the RightsLink system is unable to process your particular request, your query is automatically redirected to the Rights and Permissions Department in Dordrecht, The Netherlands. You will be contacted by the department if this is the case.

If you are an author, or an ASM International or TMS member deserving of a discount please do not process your request via RightsLink but contact permissions directly at permissions.dordrecht@springer.com. Please mention that you are a member and provide member number with your request.

For questions about using the Rightslink service, please contact Customer Support via phone 877/622-5543 (toll free) or 978/777-9929, or email customer@copyright.com
