

# SpringerBriefs – fast and easy publishing

Springer is delighted to introduce SpringerBriefs, concise summaries of cutting-edge research and practical applications across a wide spectrum of fields. Featuring compact softcover volumes of 50 to 125 pages, the series covers a range of content from professional to academic.

## Typical topics might include:

- A timely report of state-of-the art analytical techniques
- A bridge between new research results published in journal articles and a contextual literature review
- A snapshot of a hot or emerging topic
- An in-depth case study or clinical example
- A presentation of core concepts that students must understand in order to make independent contributions

## Author Benefits

- ▶ Briefs allow authors to present their ideas and readers to absorb them with minimal time investment.
- ▶ Briefs will be published as part of Springer's eBook collection, with millions of users worldwide. In addition, Briefs will be available for individual print and electronic purchase.
- ▶ Briefs are characterized by fast, global electronic dissemination and standard publishing contracts
- ▶ Books in the program will benefit from easy-to-use manuscript preparation and formatting guidelines, and expedited production schedules. We aim for publication 8-12 weeks after acceptance.

## SpringerBriefs in a nutshell

SpringerBriefs specifications vary depending on the title, but generally, each Brief will have:

- ▶ 50-125 typeset pages, including all tables, figures, illustrations, notes, references, etc.
- ▶ Softcover binding
- ▶ Versions in print, eBook, and MyCopy so readers have access 24 hours a day
- ▶ A very quick turnaround to reach the market quickly

# SpringerBriefs in Green Chemistry for Sustainability

a subseries of SpringerBriefs in Molecular Science

Briefs in this series present concise summaries of cutting-edge research and practical applications across a wide spectrum of fields including but not restricted to: Green House Gases and Global Warming, Microwave Synthesis, Solvent Free Reactions, Ultrasound Technology, Sonochemistry, Electrochemical Syntheses, Phytoremediation, Waste Management, Water Treatment and Wastewater Management, Dyes and pigments, Food and Pulp industry, Dairy Products and their Preservation, Catalysis and Biocatalysis, Biopolymer technology.

The publications are targeted at (but not restricted to) scientists and researchers in the fields of Chemical Engineering, Sonochemistry and Green Chemistry Research, Engineering and Innovative Technology, and Sustainable Development Issues, Environmental Pollution Abatement, Cleaner Production Technologies and Catalysis.

## About the Series Editor

Prof. Sanjay K. Sharma is the series editor for SpringerBriefs in Green Chemistry for Sustainability. A well known author and editor, Prof. Sharma has published his work in many books and contributed to several publications. His work in the field of green corrosion inhibitors is very well recognized. An academic of international merit, Prof. Sharma has published several Chemistry books and more than 40 research papers.

Professor Sharma is currently Professor of Chemistry at Jaipur Engineering College & Research Centre, JECRC Foundation, Jaipur (India) where he also serves as Professor and Head of the Chemistry and Environmental Engineering department. His research interests include: green chemistry, water pollution and research, microwave synthesis, and waste management. He is a member of various international professional societies including the American Chemical Society (USA), Green Chemistry Network, Royal Society of Chemistry (UK), International Society of Analytical Scientists, Indian Council of Chemists, International Congress of Chemistry and the Environment, and the Indian Chemical Society.

Prof. Sharma is the Editor-in-Chief of three international research journals: RASAYAN Journal of Chemistry, International Journal of Chemical Environmental and Pharmaceutical Research and the International Journal of Water Treatment & Green Chemistry; he is also a reviewer for many other international journals.
