- 384 (O) Post-mortem bereavement of family caregivers in Germany: a prospective interview-based investigation
- 584 (O) Benefit of the minimal invasive ultrasonography-guided single shot femoro-popliteal block for ankle surgery in comparison with spinal anesthesia

### Angiology/Vascular Medicine

- 588 (C) True aneurysm of brachial artery

### Biochemistry, Chemistry, Laboratory Medicine

- Suppl 1 S 19 (to issue 5–6) (R) New medicines for malaria

### Biomedical Engineering, Physics, Computers

- 626 (O) Mechanisms involved in the inhibition of osteoclast generation by the benzothiophene SERM LY117018
- Suppl 2 S 3 (to issue 9–10) (P) E-health integration and interoperability based on open-source information technology

### Bone Diseases

- 532 (O) Pharmacologic undertreatment of osteoporosis in Austrian nursing homes and senior’s residences

### Cardiology

- 22 (I) Dual chamber pacemaker implantation in a patient with persistent left superior vena cava after orthotopic heart transplantation
- 37 (O) Takotsubo syndrome: an important differential diagnosis in patients with acute chest pain
- 146 (O) Clinical experience with routine use of a single combined mapping and ablation catheter for isolation of pulmonary veins in patients with paroxysmal atrial fibrillation
- 152 (O) Evolution of cardiovascular risk factors among 18-year-old males in Austria between 1986 and 2005
- 159 (O) Lipoprotein(a) predicts progression of carotid artery intima-media thickening in patients with type 2 diabetes: A four-year follow-up
- 184 (L) The role of all-cause mortality in Cardiology: a randomized controlled trial

### Cardiothoracic and Vascular Surgery

- 22 (I) Dual chamber pacemaker implantation in a patient with persistent left superior vena cava after orthotopic heart transplantation
- 441 (CS) Evaluation of the potential organ donor with special regards to heart donation

### Complementary Medicine

- 538 (O) Health – History and conceptions of the guiding notion of medicine

### Dermatology

- 75 (I) Pyoderma gangrenosum
- 219 (I) Basal cell carcinoma
- 311 (C) IgA pemphigus associated with monoclonal gammopathy completely resolved after achievement of complete remission of multiple myeloma with bortezomib, cyclophosphamide and dexamethasone regimen
- 551 (O) Lower prevalence of common flagellar mutations in a community sample of atopic eczema: is disease severity important?

### Diabetes

- 159 (O) Lipoprotein(a) predicts progression of carotid artery intima-media thickening in patients with type 2 diabetes: A four-year follow-up
- 341 (O) Long-term impact of a structured group-based inpatient-education program for intensive insulin therapy in patients with diabetes mellitus
