

Manuscript submission

Springer now offers authors, editors and reviewers of *Angiogenesis* the option of using our fully web-enabled online manuscript submission and review system. To keep the review time as short as possible (no postal delays!), we encourage authors to submit manuscripts online to the journal's editorial office. Our online manuscript submission and review system offers authors the option to track the progress of the review process of manuscripts in real time.

The online manuscript submission and review system for *Angiogenesis* offers easy and straightforward log-in and submission procedures. This system supports a wide range of submission file formats: for manuscripts - Word, WordPerfect, RTF, TXT and LaTeX; for figures - TIFF, GIF, JPEG, EPS, PPT, and Postscript.

NOTE: By using the online manuscript submission and review system, it is NOT necessary to submit the manuscript also in printout + disk.

In case you encounter any difficulties while submitting your manuscript on line, please get in touch with the responsible Editorial Assistant by clicking on "CONTACT US" from the tool bar.

Manuscripts should be submitted to:

<http://agen.edmgr.com>

Electronic Figures

You should supply the electronic versions of your figures. We prefer figures in TIFF, EPS, PS, PDF and Microsoft Office format. Be aware that we may not be able to use other file formats and that the hard copy may be scanned instead. For vector graphics, EPS is the preferred format. For bitmapped graphics, TIFF is the preferred format. The following resolutions are optimal: line figures – 600–1200 dpi; photographs – 300 dpi; screen dumps – leave as is. Colour figures can be submitted in the RGB colour system. Font-related problems can be avoided by using standard fonts such as Times Roman, Courier and Helvetica. Figures should be saved in separate files. The figure legends should be included in the text file.

Language

We appreciate any efforts that you make to ensure that the language is corrected before submission. This will greatly improve the legibility of your paper if English is not your first language.

Manuscript presentation

The journal's language is English. British English or American English spelling and terminology may be used, but either one should be followed consistently throughout the article. Manuscripts should be printed or typewritten on A4 or US Letter bond paper, one side only, leaving adequate margins on all sides to allow reviewers' remarks. Please double-space all material, including notes and references. Quotations of more than 40 words should be set off clearly, either by indenting the left-hand margin or by using a smaller typeface. Use double quotation marks for direct quotations and single quotation marks for quotations within quotations and for words or phrases used in a special sense.

Number the pages consecutively with the first page containing:

- running head (shortened title)
- article type
- title
- author(s)
- affiliation(s)
- full address for correspondence, including telephone and fax number and e-mail address

Abstract

Please provide a short abstract of 100 to 250 words. The abstract should not contain any undefined abbreviations or unspecified references.

Key words

Please provide 5 to 10 key words or short phrases in alphabetical order.

Article types

Original Papers, Reviews, Brief Communications, Letters to the Editor and Book Reviews will be considered for publication.

Symbols and units

Systeme International (SI) units should be used throughout.

Section headings

First-, second-, third-, and fourth-order headings should be clearly distinguishable but not numbered.

Appendices

Supplementary material should be collected in an Appendix and placed before the Notes and Reference sections.

Notes

Please use endnotes rather than footnotes. Notes should be indicated by consecutive superscript numbers in the text and listed at the end of the article before the References. A source reference note should be indicated by means of an asterisk after the title. This note should be placed at the bottom of the first page.

Cross-referencing

In the text, a reference identified by means of an author's name should be followed by the reference number in square brackets. When there are more than two authors, only the first author's name should be mentioned, followed by 'et al.'

Examples:

Winograd [1]

Bullen and Bennett [2]

Bullen et al. [3]

Acknowledgements

Acknowledgements of people, grants, funds, etc. should be placed in a separate section before the References.

Figures

All photographs, graphs and diagrams should be referred to as a 'Figure' and they should be numbered consecutively (1, 2, etc.). Multi-part figures ought to be labeled with lower case letters (a, b, etc.). Please insert keys and scale bars directly in the figures. Relatively small text and great variation in text sizes within figures should be avoided as figures are often reduced in size. Figures may be sized to fit approximately within the column(s) of the journal. Provide a detailed legend (without abbreviations) to each figure, refer to the figure in the text and note its approximate location in the margin. Please place the legends in the manuscript after the references.

Tables

Each table should be numbered consecutively (1, 2, etc.). In tables, footnotes are preferable to long explanatory material in either the heading or body of the table. Such explanatory footnotes, identified by superscript letters, should be placed immediately below the table. Please provide a caption (without abbreviations) to each table, refer to the table in the text and note its approximate location in the margin. Finally, please place the tables after the figures legends in the manuscript.

Proofs

Proofs will be sent to the corresponding author by e-mail (if no e-mail address is available or appears to be out of order, proofs will be sent by regular mail).

Your response, with or without corrections, should be sent within 72 hours. Please do not make any corrections to the PDF file. Minor corrections (+/- 10) should be sent as an e-mail attachment to: proofscorrection@springer.com. Always quote the four-letter journal code and article number and the DO No. from your proof in the subject field of your e-mail. Extensive corrections must be clearly marked on a printout of the PDF file and should be sent by first-class mail (airmail overseas).

Offprints

Twenty-five offprints of each article will be provided free of charge. Additional offprints (both hard copies and PDF files) can be ordered by means of an offprint order form supplied with the proofs.

Page charges and colour figures

No page charges are levied on authors or their institutions except for colour pages. The author will be contacted regarding costs and invoicing if the manuscript includes colour figures.

Copyright

Authors will be asked, upon acceptance of an article, to transfer copyright of the article to the Publisher. This will ensure the widest possible dissemination of information under copyright laws.

Permissions

It is the responsibility of the author to obtain written permission for a quotation from unpublished material, or for all quotations in excess of 250 words in one extract or 500 words in total from any work still in copyright, and for the reprinting of figures, tables or poems from unpublished or copyrighted material.

Springer Open Choice

In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springer's online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please click on the link below to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will publish as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.
