neurogenetics

Editors-in-Chief: G.W.J. Auburger; M.B. Graeber; L.J. Ptacek

Neurogenetics presents research that contributes to better understanding of the genetic basis of normal and abnormal function of the nervous system. The journal publishes findings in humans and other organisms that help explain neurological disease mechanisms, and papers from many fields such as biophysics, cell biology, human genetics, neuroanatomy, neurochemistry, neurology, neuropathology, neurosurgery and psychiatry.

Neurogenetics includes Review Articles, Original Articles, Short Communications and Letters to the Editors.

No publication charges except for special services (Open Access, paper offprints, e-offprints, posters etc).

Color art is free of charge for print and online publication.

Impact Factor: 3.090 (2017), Journal Citation Reports®
