Journal of the Association for Research in Otolaryngology
Editor-in-Chief: P.B. Manis

Free app available on iTunes and Google Play Store

JARO is a peer-reviewed journal that publishes research findings from disciplines related to otolaryngology and communications sciences, including hearing and balance. JARO welcomes submissions describing original experimental research that investigates the mechanisms underlying problems of basic or clinical significance. Clinical case studies, pharmaceutical screens and methods papers are not encouraged unless they include significant new findings as well. Commentaries and reviews are published at the discretion of the editorial board; consult the editor-in-chief before submitting.

Accepted papers are copyedited and rapidly published in Online First before being bundled in an online issue (six per year) with notification to alerts subscribers. Springer deposits all final manuscripts with PubMed Central with a one year embargo. It is also possible to participate in our Open Choice program for full open access privileges on an article-by-article basis. JARO is a member of the Neuroscience Peer Review Consortium (NPRC), an alliance of neuroscience journals that have agreed to share manuscript reviews at the author's request. For information about the Consortium, please visit http://nprc.incf.org/authors/information-for-authors

Impact Factor: 2.716 (2018), Journal Citation Reports®
