Review of World Economics is a quarterly journal. Under the name Weltwirtschaftliches Archiv, it was founded in 1913 as the world's first journal with a focus on international economics. The Review has retained this focus, with particular emphasis on research in trade and trade policies, foreign direct investment, global supply chains, migration, international finance, currency systems and exchange rates, monetary and fiscal policies in open economies. The objective of the Review is to publish contributions of the highest quality and retain its status as one of the leading journals in international economics.
