Acta Applicandae Mathematicae

Editors-in-Chief: J. King; B. Perthame

- **Devoted to the art and techniques of applying mathematics and the development of new, applicable mathematical theories**
- **Contains papers on the different aspects of the relation between theory and application**
- **Includes longer, survey-type papers as well as state-of-the-art review papers which are written with a broad and varied readership in mind**
- **100% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again**

Acta Applicandae Mathematicae is devoted to the art and techniques of applying mathematics and the development of new, applicable mathematical methods.

Covering a large spectrum from modeling to qualitative analysis and computational methods, *Acta Applicandae Mathematicae* contains papers on different aspects of the relationship between theory and applications, ranging from descriptive papers on actual applications meeting contemporary mathematical standards to proofs of new and deep theorems in applied mathematics.

Impact Factor: 0.910 (2017), Journal Citation Reports®
