Aerobiologia

International Journal of Aerobiology - including the online journal ‘Physical Aerobiology’

Editor-in-Chief: C. Galán

► Offers interdisciplinary coverage of aerobiology and interaction of human, plant and animal systems on the biosphere
► Focuses on respiratory allergology, plant pathology, pest management, biological weathering and biodeterioration, indoor air quality, air-conditioning technology and industrial aerobiology
► Associated with the International Association for Aerobiology
► Editor-in-Chief: Carmen Galán Soldevilla, University of Córdoba, Spain

Please note, we are currently updating the 2018 Journal Metrics.

Associated with the International Association for Aerobiology, Aerobiologia is an international medium for original research and review articles in the interdisciplinary fields of aerobiology and interaction of human, plant and animal systems on the biosphere. Coverage includes bioaerosols, transport mechanisms, biometeorology, climatology, air-sea interaction, land-surface/atmosphere interaction, biological pollution, biological input to global change, microbiology, aeromycology, aeropalynology, arthropod dispersal and environmental policy. Emphasis is placed on respiratory allergology, plant pathology, pest management, biological weathering and biodeterioration, indoor air quality, air-conditioning technology, industrial aerobiology and more.

Aerobiologia serves aerobiologists, and other professionals in medicine, public health, industrial and environmental hygiene, biological sciences, agriculture, atmospheric physics, botany, environmental science and cultural heritage.

There are no page charges to publish in this journal.

All articles accepted after February 1, 2014 will have free color online and in print.

Impact Factor: 1.931 (2018), Journal Citation Reports®
