AIDS and Behavior

An international venue for the scientific exchange of research and scholarly work on HIV/AIDS

92% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

AIDS and Behavior provides an international venue for the scientific exchange of research and scholarly work on the contributing factors, prevention, consequences, social impact, and response to HIV/AIDS. The journal publishes original peer-reviewed papers addressing all areas of AIDS behavioral research including: individual, contextual, social, economic and geographic factors that facilitate HIV transmission; interventions aimed to reduce HIV transmission risks at all levels and in all contexts; mental health aspects of HIV/AIDS; medical and behavioral consequences of HIV infection - including health-related quality of life, coping, treatment and treatment adherence; and the impact of HIV infection on adults children, families, communities and societies. The journal publishes original research articles, brief research reports, and critical literature reviews.

Impact Factor: 3.017 (2017), Journal Citation Reports®
