Annals of the Institute of Statistical Mathematics

Executive Editor: T. Higuchi

- ▶ Focuses on findings that have the potential to significantly improve the practice of statistics
- ▶ Advances the field of statistics, enabling people to better cope with uncertainties
- ▶ Features high quality papers across the broad spectrum of statistics
- ▶ Welcomes contributions from professional statisticians and authors in related fields

Annals of the Institute of Statistical Mathematics (AIMS) aims to provide a forum for open communication among statisticians, and to contribute to the advancement of statistics as a science to enable humans to handle information in order to cope with uncertainties. It publishes high-quality papers that shed new light on the theoretical, computational and/or methodological aspects of statistical science. Emphasis is placed on (a) development of new methodologies motivated by real data, (b) development of unifying theories, and (c) analysis and improvement of existing methodologies and theories.

Impact Factor: 0.733 (2017), Journal Citation Reports®
