Algebra and Logic

Editor-in-Chief: Y.L. Ershov

- ▶ Publishes the latest research in modern general algebra and logic considered primarily from an algebraic viewpoint.
- ▶ Features algebraic papers, which constitute the major part of the contents and are concerned with studies in such fields as ordered, almost torsion-free, nilpotent, and metabelian groups; isomorphism rings; Lie algebras; Frattini subgroups; and clusters of algebras.

This journal publishes results of the latest research in the areas of modern general algebra and of logic considered primarily from an algebraic viewpoint. The algebraic papers, constituting the major part of the contents, are concerned with studies in such fields as ordered, almost torsion-free, nilpotent, and metabelian groups; isomorphism rings; Lie algebras; Frattini subgroups; and clusters of algebras. In the area of logic, the periodical covers such topics as hierarchical sets, logical automata, and recursive functions.

Algebra and Logic is a translation of the peer-reviewed journal *Algebra i Logika*, a publication of the Siberian Fund for Algebra and Logic and the Institute of Mathematics of the Siberian Branch of the Russian Academy of Sciences.
