International Journal of Theoretical Physics

Editor-in-Chief: H. Saller

- ▶ Presents original research and reviews in theoretical physics and neighboring fields
- ▶ Maps the direction of future research by presenting original work in traditional physics
- ▶ Offers fresh inquiry into quantum measurement theory, and other similarly fundamental areas
- ▶ 99% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

The International Journal of Theoretical Physics publishes original research and reviews in theoretical physics and neighboring fields. Dedicated to the unification of the latest physics research, this journal seeks to map the direction of future research by presenting original work in traditional physics like general relativity, quantum theory with relativistic quantum field theory, as used in particle physics; and by fresh inquiry into quantum measurement theory, and other similarly fundamental areas, among them quantum geometry and quantum logic, and others.

Impact Factor: 0.968 (2017), Journal Citation Reports®
