Journal of Muscle Research and Cell Motility

Editor-in-Chief: M. Gautel

Executive Editor: C.C. Ashley; D.J. Manstein; A.V. Somlyo; J.R. Sellers; S.B. Marston; K. Oiwa

- Offers papers on the results of research on excitation and contraction of muscle and the analysis of the processes involved
- Also covers processes underlying contractility and motility of animal and plant cells
- Publishes full-length Reviews and short News and Views items, Book Reviews, and abstracts from and reports of meetings

Please note, we are currently updating the 2018 Journal Metrics.

The Journal of Muscle Research and Cell Motility has as its main aim the publication of original research which bears on either the excitation and contraction of muscle, the analysis of any one of the processes involved therein, or the processes underlying contractility and motility of animal and plant cells. Coverage includes concise theoretical essays which suggest practical approaches for their testing.

The journal also publishes full-length Reviews and short News and Views items, Book Reviews, and abstracts from and reports of meetings.

Impact Factor: 1.702 (2018), Journal Citation Reports®
