Mobile Networks and Applications

The Journal of SPECIAL ISSUES on Mobility of Systems, Users, Data and Computing

Editor-in-Chief: I. Chlamtac

► **Follows the symbiosis of portable computers and wireless networks**
► **Addresses the convergence of mobility, computing and information organization, access and management**
► **Discusses nomadic computing, data management, software and hardware technologies, and mobile user services**

The journal Mobile Networks and Applications reflects the emerging symbiosis of portable computers and wireless networks, addressing the convergence of mobility, computing and information organization, access and management. In its special issues, the journal places an equal emphasis on various areas of nomadic computing, data management, related software and hardware technologies, and mobile user services, alongside more 'classical' topics in wireless and mobile networking. The journal documents practical and theoretical results which make a fundamental contribution.

Impact Factor: 2.497 (2017), Journal Citation Reports®
