The Ramanujan Journal

An International Journal Devoted to the Areas of Mathematics Influenced by Ramanujan

Editor-in-Chief: K. Alladi

Managing Editor: F. Garvan

- ▶ Free app available on iTunes and Google Play Store
- ▶ Publishes papers of the highest quality in all areas of mathematics influenced by Srinivasa Ramanujan, whose discoveries revealed deep and fundamental connections between several branches of mathematics.
- ▶ Comprehensive coverage.

The remarkable discoveries made by Srinivasa Ramanujan have made a great impact on several branches of mathematics, revealing deep and fundamental connections. This journal publishes papers of the highest quality in all areas of mathematics influenced by Ramanujan, including:

Hyper-geometric and basic hyper-geometric series (q-series) * Partitions, compositions and combinatorial analysis * Circle method and asymptotic formulae * Mock theta functions * Elliptic and theta functions * Modular forms and automorphic functions * Special functions and definite integrals * Continued fractions * Diophantine analysis including irrationality and transcendence * Number theory * Fourier analysis with applications to number theory * Connections between Lie algebras and q-series.

Impact Factor: 0.770 (2016), Journal Citation Reports®
