## SpringerBriefs in Operations Research

SpringerBriefs present concise summaries of cutting-edge research and practical applications across a wide spectrum of fields. Featuring compact volumes of 50 to 125 pages, the series covers a range of content from professional to academic. Typical topics might include:

- A timely report of state-of-the art analytical techniques
- A bridge between new research results, as published in journal articles, and a contextual literature review
- A snapshot of a hot or emerging topic
- An in-depth case study or clinical example
- A presentation of core concepts that students must understand in order to make independent contributions

SpringerBriefs in Operations Research showcase emerging theory, empirical research, and practical application in the various areas of operations research, management science, and related fields, from a global author community. Briefs are characterized by fast, global electronic dissemination,

standard publishing contracts, standardized manuscript preparation and formatting guidelines, and expedited production schedules.
