Frontiers of Education in China
Editor-in-Chief: M. Gu

► Features the best current articles about Chinese education written by academics from leading Chinese and international universities and academic institutions

► Offers new insights and perspectives on education in China

► Explores issues of concern to readers interested in educational development in China

This journal is a fully peer reviewed international academic journal, which publishes original papers. It aims to connect Chinese and international perspectives, and create a platform for a deepening understanding of the global significance of Chinese education. It enables readers around the world to explore the genuine meaning of Chinese educational traditions and contemporary patterns in a global context. Through promoting a multi-dimensional understanding of Chinese education, this journal seeks to enrich the theory and practice of education.
