Mycological Progress

Editor-in-Chief: M. Stadler

- ▶ A peer-reviewed, international journal on all aspects of fungi
- ▶ Coverage includes lichens
- ▶ Publishes original articles, as well as reviews and methods papers
- ▶ Affiliated with more than 10 European national mycological societies
- ▶ No publication costs (except for extra Services like Open Choice or reprints)
- ▶ 95% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

Mycological Progress is a peer-reviewed, international journal on all aspects of fungi, including lichens. It publishes original articles, but also welcomes reviews and methods papers on the taxonomy, systematics, evolutionary biology, cell biology, ecology, pathology and biotechnology of fungi. Mycological Progress is affiliated with more than 10 European national mycological societies.

Impact Factor: 1.914 (2017), Journal Citation Reports®
