ANNALI DELL'UNIVERSITA' DI FERRARA

SEZIONE VII - SCIENZE MATEMATICHE

Editor-in-Chief: P. Ionescu

- ▶ A forum for the publication of high-quality papers on a wide range of mathematical subjects
- ▶ Features papers dealing with mathematical aspects of computational theory
- ▶ Covers theory as well as applications
- ▶ Presents review papers in algebra, analysis, geometry, number theory, and the history of mathematics

Annali dell' Università di Ferrara offers a forum for the publication of high-quality papers on a wide range of mathematical subjects, including algebra, analysis, geometry, history of mathematics, mathematical physics, mechanics, numerical analysis, and number theory.

The journal features papers dealing with mathematical aspects of computational theory, as well as applications in science and engineering and theoretical topics. It also publishes review papers in algebra, analysis, geometry, number theory, and the history of mathematics.
