Journal of Forestry Research
Editor-in-Chief: B. Li

- Deals with all aspects of forestry
- Offers original research, both theoretical and experimental
- Also publishes technical reviews

The Journal of Forestry Research offers articles dealing with all aspects of forestry. It is primarily a medium for reporting original theoretical and experimental research, as well as technical reviews. Approximately 75 per cent of the papers published in the journal are by international researchers; the balance is contributed by Chinese scientists. The authorship covers more than 60 countries. The Journal of Forestry Research is operated by an international editing group which is composed of 41 associate editors from 16 countries, 4 language editors, and 4 full-time publication editors. It has earned a reputation as an important international academic journal.

Impact Factor: 1.155 (2018), Journal Citation Reports®
