EXTRACTION 2018: A Shared Vision for a Must-Attend Event

TMS Springer

JOM

The Journal of The Minerals, Metals & Materials Society (TMS)

Editor: J. Scott

- ▶ • Explores the full range of materials science and engineering
- ▶ • Reports on state-of-the-art processing, fabrication, design, and application of metals, plastics, composites, and other materials
- ▶ • Coverage includes extraction, characterization, industrial and manufacturing developments, resource and supply chain issues, and life-cycle and sustainability practices
- ▶ • Journal of The Minerals, Metals & Materials Society (TMS)

JOM is a technical journal devoted to exploring the many aspects of materials science and engineering within the broad topical areas of light metals, structural materials, functional materials, extraction and processing, and materials processing and manufacturing. *JOM* strives to balance the interests of the laboratory and the marketplace by reporting academic, industrial, and government-sponsored work from around the world.

Specific coverage areas include additive manufacturing; biomaterials; composite materials; computational materials science and engineering; corrosion; electrometallurgy and pyrometallurgy; electronic packaging and interconnection materials; energy conversion and storage; high-temperature alloys; hydrometallurgy; integrated computational materials engineering; magnetic materials; nanomaterials; nuclear materials; powder materials; recycling and environmental technologies; refractory materials; surface engineering; and thin films and interfaces. Other coverage includes education highlights, interviews, opinion, and TMS news.

Disclaimer: The opinions and statements expressed in *JOM* are those of the authors only and are not necessarily those of TMS or the editorial staff. No confirmations or endorsements are intended or implied.

Impact Factor: 2.145 (2017), Journal Citation Reports®
