**Russian Electrical Engineering**

Editor-in-Chief: Y.K. Rozanov

- ▶ Publishes the latest research results on the design and utilization of new equipment for the industry
- ▶ Explores strategies and techniques for improving the efficiency of existing equipment
- ▶ Features both theoretical and applied papers to meet the needs of the electrical engineering industry

**Please note, we are currently updating the 2018 Journal Metrics.**

*Russian Electrical Engineering* is a journal designed for the electrical engineering industry and publishes the latest research results on the design and utilization of new types of equipment for that industry and on the ways of improving the efficiency of existing equipment.

**PEER REVIEW**

Russian Electrical Engineering is a peer reviewed journal. We use a single blind peer review format. Our team of reviewers includes over 50 experts from 14 countries (Serbia, Denmark, Romania, Turkey, Poland, Japan, Netherlands, Germany, USA, China, Algeria, Bulgaria, Ukraine, Russian Federation). The average period from submission to first decision in 2018 was 60 days, and that from first decision to acceptance was 90 days. The rejection rate for submitted manuscripts in 2018 was 30%. The final decision on the acceptance of an article for publication is made by the Editorial Board.

Any invited reviewer who feels unqualified or unable to review the manuscript due to the conflict of interests should promptly notify the editors and decline the invitation. Reviewers should formulate their statements clearly in a sound and reasoned way so that authors can use reviewer's arguments to improve the manuscript. Personal criticism of the authors must be avoided. Reviewers should indicate in a review (i) any relevant published work that has not been cited by the authors, (ii) anything that has been reported in previous publications and not given appropriate reference or citation, (iii) any substantial similarity or overlap with any other manuscript (published or unpublished) of which they have personal knowledge.
