Journal of Genetics

Published by the Indian Academy of Sciences

Editor-in-Chief: H.A. Ranganath

- ▶ Published by the Indian Academy of Sciences
- ▶ Founded 1910, this is the oldest English language journal in genetics
- ▶ Retains its interest in evolutionary research
- ▶ Presents information of relevance to geneticists, even if not explicitly genetic
- ▶ Co-published with the Indian Academy of Sciences

This is the oldest English language journal in genetics. Founded by W. Bateson and R. C. Punnett in 1910, the Journal of Genetics was later edited by J. B. S. Haldane; later, Haldane and his wife, Helen Spurway brought the journal with them to India.

After his death in 1964, Mrs. Haldane continued publication of the journal, with Madhav Gadgil and H. Sharat Chandra (Indian Institute of Science, Bangalore) and Suresh Jayakar (Laboratorio de Genetica Biochimica ed Evoluzionistica, Pavia) as editors, until her own death in 1977. In 1985, with the permission of Haldane's heirs, the Indian Academy of Sciences resumed publication of the journal.

The journal retains its traditional interest in evolutionary research that is of relevance to geneticists, even if not explicitly genetic in nature.

Impact Factor: 0.672 (2017), Journal Citation Reports®
