► IJH Gateway is available at http://ijhgateway.net/
► 97% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

Please note, we are currently updating the 2018 Journal Metrics.

This official journal of the Japanese Society of Hematology covers all aspects of the field of hematology, namely, erythrocytes, leukocytes and hematopoiesis, hemostasis, thrombosis and vascular biology, hematological malignancies, transplantation, and cell therapy.

The International Journal of Hematology (IJH) has a long history of publishing leading research in the field. It features articles that contribute to progress in research not only in basic hematology but also in clinical hematology. The expanded Progress in Hematology section integrates such relevant fields as the cell biology of stem cells and cancer cells, and clinical research in inflammation, cancer, and thrombosis. In addition, the journal includes reports on results of clinical trials, which help foster communication among researchers in the growing field of modern hematology.

The journal provides the best of up-to-date information on modern hematology, presenting readers with high-impact, original work focusing on pivotal issues.
