Child Indicators Research

The official Journal of the International Society for Child Indicators

Editors-in-Chief: A. Ben-Arieh; B.J. Lee; C. Hunner-Kreisel

- ▶ Presents measurements and indicators of children's well-being and their usage within multiple domains and in diverse cultures
- ▶ Features measures and data resources, analysis of the data, exploration of theoretical issues, and information about the status of children
- ▶ Explores how child indicators can be used to improve the development and well-being of children
- ▶ Presents a variety of analytical models, different perspectives, and a range of social policy regimes
- ▶ 100% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

Child Indicators Research presents measurements and indicators of children's well-being and their usage within multiple domains and in diverse cultures. It features measures and data resources, analysis of the data, exploration of theoretical issues, and information about the status of children, as well as the implementation of this information in policy and practice. The journal explores how child indicators can be used to improve the development and well-being of children.

Child Indicators Research offers a unique, applied perspective by presenting a variety of analytical models, different perspectives, and a range of social policy regimes. It provides a source of high quality, policy impact and rigorous scientific papers.

Child Indicators Research is being indexed in the Global Health and CAB Abstracts databases.

Impact Factor: 1.656 (2018), Journal Citation Reports®
