

Annals of Telecommunications

Editor-in-Chief: G. Pujolle

This international journal publishes original peer-reviewed papers in the field of telecommunications. It covers all the essential branches of modern telecommunications, ranging from digital communications to communication networks and the internet, to software, protocols and services, uses and economics. This large spectrum of topics accounts for the rapid convergence through telecommunications of the underlying technologies in computers, communications, content management towards the emergence of the information and knowledge society.

Impact Factor: 1.168 (2017), Journal Citation Reports®
