Indian Journal of Hematology and Blood Transfusion
Editor: H. Pati

- Presents peer-reviewed articles on clinical hematology, laboratory hematology and hemato-oncology
- Encourages investigation, discussion and broad diffusion of knowledge in the study of blood in health and disease
- The official publication of The Indian Society of Hematology & Blood Transfusion (ISHBT)
- 93% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

Indian Journal of Hematology & Blood Transfusion is the official publication of The Indian Society of Hematology & Blood Transfusion. The quarterly journal publishes Original Articles, Case Reports, Correspondence, and Review Articles in the related fields of Hematology, Hemato Oncology, Molecular Hematology, Pediatric Hematology, Transfusion Medicine, Genetics, and Laboratory Hematology.

**Peer Review**

Once a manuscript is submitted online to the journal site, the initial step is a technical check by the publisher who also assesses the article for completeness, adherence to instructions for authors, inclusion of ethics and competing interest’s statements, and run a plagiarism check. Articles that pass the completeness are transferred to the EIC who, after an initial appraisal, assigns the manuscript to one of seventeen Associate Editors. Based on the overall opinion, articles may be rejected at the initial stage by the EIC or by the Assoc. Eds. or may sent out by the latter for peer review. Often the Assoc. Eds. themselves contribute to a detailed peer-review of deserving manuscripts.

For external peer review, the UHBT adheres to a double-blind process that mandates review of all original research and review manuscripts by at least two/three experts in the journal’s reviewer database, PubMed search, or other online sources. The voluntary reviewers may choose to reject the paper, or advice revisions, or rarely recommend acceptance as such. In case of divergent opinions among the reviewers, it goes to another reviewer who is expert in that section. Clear and concise guidance is provided to the reviewers and periodic feedback is sought to maintain uniformity and objectiveness of the peer review process.

Impact Factor: 0.869 (2018), Journal Citation Reports®
