ADHD Attention Deficit and Hyperactivity Disorders
Editors-in-Chief: M. Gerlach

- Publishes basic and clinical research papers contributing to the understanding of ADHD
- ADHD brings together biological, clinical and psychological research

*Please note, we are currently updating the 2018 Journal Metrics.*

ADHD Attention Deficit and Hyperactivity Disorders publishes the results of basic and clinical research contributing to the understanding, diagnosis and treatment of all psychiatric syndromes in which attention-deficit hyperactivity disorder (ADHD) may be a feature.

Regular features will include: original research reports; review papers; case studies; short communications; and letters to the Editor.

The Journal publishes novel papers that contribute to the understanding of ADHD. Attention Deficit and Hyperactivity Disorders brings together biological, clinical and psychological research in order to stimulate the synthesis of findings from all disciplines involved in improving patient outcomes in all psychiatric syndromes in which ADHD may be a feature.
