Cardiovascular Diabetology
Editor-in-Chief: E. Fisman; A. Tenenbaum

► The first journal in its field to exclusively cover the link between diabetes and cardiovascular disorders
► Average time to first decision of 28 days
► Highly accessed, over 100,000 article accesses per month

First in the field to exclusively cover the link between diabetes and cardiovascular disorders, Cardiovascular Diabetology is the leading, international open access journal specifically dedicated to exploring the interrelationship between heart diseases and alterations in glucose metabolism. With a rigorous peer review process and a quick time to first decision, Cardiovascular Diabetology provides high visibility and ample global exposure to showcase the extraordinary breakthroughs in clinical, genetic, experimental, pharmacological, epidemiological, and molecular biology research with one goal in mind, to improve public health in the cardiocirculatory and diabetic landscape.

Impact Factor: 5.235 (2017), Journal Citation Reports®

Giving authors in their area of expertise the opportunity to publish open access
► High visibility thanks to unrestricted online access
► Rigorous peer-review and high-quality author services
► Creative Commons licensed – authors retain copyright
► Citation tracking and inclusion in bibliographic databases
► Easy compliance with open access mandates
