Particle and Fibre Toxicology
Editor-in-Chief: F.R. Cassee

► Publishes cutting-edge research in Toxicology.
► 100% of surveyed authors would recommend the journal to a colleague and 100% would publish in the journal again.
► Internationally renowned Editorial Board

One of the leading journals in the field of toxicology, Particle and Fibre Toxicology publishes cutting-edge research focusing on understanding the physico-chemistry of the particles, human exposure and biological outcomes, and regulatory issues in the workplace and general environment. Our internationally renowned editorial board welcomes high quality submissions on diverse scenarios where particles may pose a toxicological threat due to new applications of old materials or introduction of new materials. Highly cited and well respected, we are dedicated to create a forum for debate and communication among toxicologists.

Impact Factor: 6.105 (2017), Journal Citation Reports®

Giving authors in their area of expertise the opportunity to publish open access

► High visibility thanks to unrestricted online access
► Rigorous peer-review and high-quality author services
► Creative Commons licensed – authors retain copyright
► Citation tracking and inclusion in bibliographic databases
► Easy compliance with open access mandates
