Journal of Physiology and Biochemistry

Official Journal of the University of Navarra, Spain
Editors-in-Chief: M.P. Lostao; M.J. Moreno Aliaga

- Presents research on a wide range of topics encompassing physiology and biochemistry
- Integrated focus ranges from the molecular level to the whole organism
- Also offers articles on nutritional studies and the genomic or proteomic bases of physiological functions
- 100% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

Please note, we are currently updating the 2018 Journal Metrics.

The Journal of Physiology and Biochemistry publishes original research articles on relevant new observations on the different aspects of human physiology and pathophysiology, biochemistry, and related fields. It also publishes mini reviews on those fields. All areas of the physiology are covered, from the molecular to the global organism level. Special emphasis is placed on the integration of those levels in the whole-organism, with the specific contribution of the nervous and endocrine systems. The Journal of Physiology and Biochemistry also welcomes articles on nutritional regulation of metabolism studies and works related to the genomic or proteomic bases of the physiological functions.

Details Concerning the Submission and Publication Procedures:

- No Page Charges
- No Fees for Online Color Images
- Optional Color Images in Print – Euro 950,-
- Optional Open Access Publication Fee (APC) – please check @ https://www.springernature.com/de/open-research/journals-books/journals

Impact Factor: 2.523 (2018), Journal Citation Reports*
