## Organisms Diversity & Evolution

Editor-in-Chief: A. Wanninger

- ▶ Covers all groups of eukaryotic organisms
- ▶ Official Journal of the "Gesellschaft für Biologische Systematik"
- ▶ Supported by the partner societies of the "Gesellschaft für Biologische Systematik"
- ▶ 5-Year Impact Factor 2016: 3.632

*Organisms Diversity & Evolution* (published by the Gesellschaft fuer Biologische Systematik, GfBS) is devoted to furthering our understanding of all aspects of organismal diversity and evolution. Papers addressing evolutionary aspects of the systematics, phylogenetics, morphology and development, taxonomy and biogeography of any group of eukaryotes, recent or fossil, are welcome. Priority is given to papers with a strong evolutionary and/or phylogenetic focus. Manuscripts presenting important methods or tools or addressing key theoretical, methodological, and philosophical principles related to the study of organismal diversity are also welcome. Species descriptions are welcome as parts of a manuscript of broader interest that strive to integrate such taxonomic information with the other areas of interest mentioned above.

Journal rank 20 (of 163) in subject category "Zoology" of the 2016 Journal Citation Report (ISI Web of Knowledge).

Published articles are of one of the following five types:

- **Original article.** Papers describing original, high-quality research in any of the areas mentioned above.
- **Methods paper.** Short papers (< 5 journal pages) describing new laboratory methods, bioinformatic tools, or databases that will facilitate research into organismal diversity.
- **Forum paper.** Papers discussing issues relevant to the main areas of interest of the journal and their related science politics.
- **Review.** Reviews of topics relevant to the journal. If you plan to submit a review, please contact the Editor-in-Chief by email at [andreas.wanninger@univie.ac.at](mailto:andreas.wanninger@univie.ac.at).

Impact Factor: 2.313 (2016), Journal Citation Reports®
