Cardiac and Vascular Biology

Editor-in-chief: M. Hecker

Series Editors: J. Backs, M. Freichel, M. Mayr, U. Pohl, J. Xiao, D. Merkus, S. Parker

This book series publishes review articles discussing important aspects in research and in clinics in the field of cardiac and vascular biology. Basic research aspects of medically relevant topics are covered and the latest advances and methods from diverse disciplines such as genetics, epigenetics, mechanobiology, platelet research or stem cell biology are featured. The book series is intended for researchers, experts and graduates, both basic and clinically oriented, that look for a carefully selected collection of high quality review articles on their respective field of expertise.
