### 3 Biotech

Executive Editor-in-Chief: B. Patel

Editors-in-Chief: F.A.A. Al-Mohanna

**3 Biotech** publishes the results of the latest research related to the study and application of biotechnology to:

- **Medicine and Biomedical Sciences**

- **Agriculture**

- **The Environment**

The focus on these three technology sectors recognizes that complete Biotechnology applications often require a combination of techniques. **3 Biotech** not only presents the latest developments in biotechnology but also addresses the problems and benefits of integrating a variety of techniques for a particular application. **3 Biotech** appeals to scientists and engineers in both academia and industry focusing on the safe and efficient application of Biotechnology to Medicine, Agriculture and the Environment.

Articles from a huge variety of biotechnology applications are welcome including:

- Cancer and stem cell research
- Genetic engineering and cloning
- Bioremediation and biodegradation
- Bioinformatics and system biology
- Biomarkers and biosensors
- Biodiversity and biodiscovery
- Biorobotics and biotoxins
- Analytical biotechnology and the human genome

**3 Biotech** accepts original and review articles as well as short research reports, protocols and methods, notes to the editor, letters to the editor and book reviews for publication. Up to date topical review articles will also be considered.

Impact Factor: 1.786 (2018), Journal Citation Reports®
