Research Perspectives CRM Barcelona

Subseries of Trends in Mathematics

Series Ed.: E. Ventura

Since 1984 the Centre de Recerca Matemàtica (CRM) has been organizing scientific events such as conferences or workshops which span a wide range of cutting-edge topics in mathematics and present outstanding new results. In the fall of 2012, the CRM decided to publish extended conference abstracts originating from scientific events hosted at the center. The aim of this initiative is to quickly communicate new achievements, contribute to a fluent update of the state of the art, and enhance the scientific benefit of the CRM meetings. The extended abstracts are published in the subseries Research Perspectives CRM Barcelona within the Trends in Mathematics series. Volumes in the subseries will include a collection of revised written versions of the communications, grouped by events. Contributing authors to this extended abstracts series remain free to use their own material as in these publications for other purposes (for example a revised and enlarged paper) without prior consent from the publisher, provided it is not identical in form and content with the original publication and provided the original source is appropriately credited.

Recently published:

A. Korobeinikov, M. Caubergh, T. Lázaro, J. Sardanyés (Eds.)

Extended Abstracts Spring 2018

Singularly Perturbed Systems, Multiscale Phenomena and Hysteresis: Theory and Applications, Vol. 11

A. Korobeinikov (Ed.)

Extended Abstracts Summer 2016

Slow-Fast Systems and Hysteresis: Theory and Applications, Vol. 10

M. Alberich-Carramiñana, C. Galindo, A. Küronya, J. Roé (Eds.)

Extended Abstracts February 2016

Positivity and Valuations, Vol. 9
