Journal of Radiation Oncology
Editors-in-Chief: J.J. Lu; B.S. Teh; J.S. Welsh

- Presents clinical research on a range of topics on management of cancer using radiation therapy
- Publishes experimental work in radiobiology, tumor biology, radiation treatment planning and more
- Covers related topics including palliative treatment, chemotherapy and surgery
- Official journal of the American College of Radiation Oncology (ACRO)

Journal of Radiation Oncology is an international interdisciplinary journal that publishes original research, clinical investigations, review articles, editorial comments, and other scientific articles relating to radiation oncology. It aims to be a forum for collaboration and knowledge exchange in the management of cancer using radiation therapy.

Journal of Radiation Oncology is the official journal of the American College of Radiation Oncology (ACRO).

ACRO members: please access the journal via your ACRO portal http://www.acro.org/members2/ and login with your member login.

Ethical standards

To ensure objectivity and transparency in research and to ensure that accepted principles of ethical and professional conduct have been followed, authors should include information regarding sources of funding, potential conflicts of interest (financial or non-financial), informed consent if the research involved human participants, and a statement on welfare of animals if the research involved animals.

Authors should include the following statements (if applicable) in a separate section entitled “Compliance with Ethical Standards” before the References when submitting a paper:

- Disclosure of potential conflicts of interest
- Research involving Human Participants and/or Animals
- Informed consent

Please note that standards could vary slightly per journal dependent on their peer review policies (i.e. double blind peer review) as well as per journal subject discipline.
