## Graduate Texts in Mathematics

Series Ed.: R. Vakil

**Graduate Texts in Mathematics** bridge the gap between passive study and creative understanding, offering graduate-level introductions to advanced topics in mathematics. The volumes are carefully written as teaching aids and highlight characteristic features of the theory. Although these books are frequently used as textbooks in graduate courses, they are also suitable for individual study.

### Series Editor:

Ravi Vakil, *Stanford University*

### Advisory Board:

Alejandro Adem, *University of British Columbia*

David Eisenbud, *University of California, Berkeley & MSRI*

Brian C. Hall, *University of Notre Dame*

Patricia Hersh, *University of Oregon* Jeffrey C. Lagarias, *University of Michigan*

Eugenia Malinnikova, *Stanford University* Ken Ono, *University of Virginia*

Jeremy Quastel, *University of Toronto*

Barry Simon, *California Institute of Technology* Steven H. Weintraub, *Lehigh University*

Melanie Matchett Wood, *Harvard University*
