## International Journal of Environmental Science and Technology

Editor-in-Chief: M. Abbaspour

- ▶ Establishes a strong link between the environment and the sciences which can promote it
- ▶ Welcomes the researches which offer an objective solution to environmental challenges
- ▶ A robust hub for all who seek to make the Earth a better place to live!
- ▶ Covers novel, high quality reviews, original papers and short communications
- ▶ No page charges, no color illustration charges and no publication fee

International Journal of Environmental Science and Technology (IJEST) is an international scholarly refereed research journal which aims to promote the theory and practice of environmental science and technology, innovation, engineering and management.

A broad outline of the journal's scope includes: peer reviewed original research articles, case and technical reports, reviews and analyses papers, short communications and notes to the editor, in interdisciplinary information on the practice and status of research in environmental science and technology, both natural and man made.

The main aspects of research areas include, but are not exclusive to; environmental chemistry and biology, environments pollution control and abatement technology, transport and fate of pollutants in the environment, concentrations and dispersion of wastes in air, water, and soil, point and non-point sources pollution, heavy metals and organic compounds in the environment, atmospheric pollutants and trace gases, solid and hazardous waste management; soil biodegradation and bioremediation of contaminated sites; environmental impact assessment, industrial ecology, ecological and human risk assessment; improved energy management and auditing efficiency and environmental standards and criteria.

This journal is a member of the Committee on Publication Ethics (COPE) and subscribes to its principles on how to deal with acts of misconduct.

Peer review is conducted using Editorial Manager®, supported by a database of international experts. This database is shared with the *International Journal of Energy and Water Resources*.

Impact Factor: 2.031 (2018), Journal Citation Reports®
