

Integrating Psychiatry and Primary Care

Series Editors: D. Bhugra, M.B. Riba

This series of books will serve to provide models of clinical care; transfer research advances and evidence-based practices into practical applications for mental health providers and primary care providers; and increase knowledge about this field. Both editors are strongly associated with the World Psychiatry Association, one of the world's largest medical organizations, which together with its partners provides services to help bring new information and findings to clinicians in many disciplines, who are caring for patients and families. This series brings together well known editors and authors to develop important topics in primary care psychiatry.
